Campaign Spending: [List of Filers](#)

I moved to this wonderful state in 1967, live in Honokaa, and worked as an emergency physician in Hilo for 28 years. My wife, Diane Miyose, is originally from Kona. We have children and grandchildren working and going to school on Hawaii Island. I understand well the relationship between societal problems like domestic violence, child abuse, and substance abuse, like the devastating ice epidemic and major stressors in life such as lack of jobs, poverty, idle time for children and hopelessness. As a councilman, I will listen to the people, and work towards bringing quality jobs and more recreational activities to our communities.

There are a number of very important issues that require our urgent attention: solid waste- possible temporary mainland shipping, no trucking to West Hawaii; infrastructure mitigation with new development; impact fees; community development plans in each district; affordable housing; methamphetamine; mauka- makai access; coqui frogs; safe ATV riding areas; parks, gymnasium and pool repairs; roads; public land preservation; preservation of our agricultural and rural lifestyle and one of the most agonizing threats to so many families- escalating land prices and taxes forcing people to be unable to stay on their land and/or pass it on to their children.

I respectfully ask for the opportunity to continue to work on these and many other issues. Mahalo and aloha.
